

# The Bank Bashers

A small group of concerned Canadian businessmen are joining forces to form a new federal organization for the purpose of uniting all individual businessmen, including farmers, into one united group. The primary goal of the organization will be to act as a mediator between individual clients and their bank or lending institution. The objective of the organization is to alleviate the cruel and unconscionable treatment inflicted on individual businessmen and farmers and their families during this current "depression" which has been caused by the Chartered Banks.

The organization, named "The Bank Bashers Unincorporated", feels that their services are desperately needed today by small businessmen, farmers, homeowners, and any individuals or corporations who wish to be counted among the Freedom Fighters of Canada.

Since the need for borrowing money in Canada has become a necessary evil to carry on business, it is not the intention of the organization to do away with the banking industry, but just to make it more honest and humane in dealing with its customers. Therefore, the organization intends to support only those lending institutions that have a history of dealing with its customers in a humane fashion during these difficult times.

*This may be our last chance!!!* What more appropriate time to ask our newly elected politicians how they intend to cope with the thousands of farms that have been foreclosed, the manufacturing sector of our economy that has been practically wiped out because of high interest rates, homeowners who have lost their homes, their jobs, and the list goes on ...

Don't buy your Banker's arguments that "interest rates are made in the U.S.A." or "foreclosures are because farmers are bad businessmen" - THIS IS NOT SO.

The Banks (I.M.F., Federal Reserve Board, Bank of Canada) have taken our jobs, our businesses, our farms, our homes and our self-confidence with their monetary policy. The only thing left for them to take is our kids, and they'll do that in a War over oil in the Middle East within months, now that Mulroney and Reagan are running the West. Our presumed problems are only symptoms of the real problem - the shortage of money in the economy because of the internationally high interest rate policy.

The BANK BASHERS urges you to join the Freedom Fighters of Canada.

"Canada today faces challenges greater than any which it has before. This is no time for complacency. This is no time to abandon the drive and the imaginative creativity which has characterized this country since its birth. This is no time for timidity or doubt. This is a time for boldness and energy. This is a time for stout-hearted men and women to stand up and turn dreams into reality." John P. Gorman B.A., LL.B. March 26, 1984

# Quotable Quotes

Abraham Lincoln

The money power preys upon the nation in times of peace, and conspires against it in times of adversity. It is more despotic than monarchy, more insolent than autocracy, more selfish than bureaucracy. It denounces, as public enemies, all who question its methods or throw light upon its crimes.

President Thomas Jefferson

I believe that banking institutions are more dangerous to our liberties than standing armies. Already they have raised up a moneyed aristocracy that has set the Government at defiance. The issuing power should be taken from the banks and restored to the people to whom it properly belongs.

Henry Ford, Sr.

The youth who can solve the money question will do more for the world than all the professional soldiers of history.

President James A. Garfield

Whoever controls the volume of money in any country is absolute master of all industry and commerce.

Mayer Anselm Rothschild

Permit me to issue and control the money of a nation, and I care not who makes its laws.

Rothschild Brothers of London

The few who can understand the system (check money and credits) will either be so interested in its profits, or so dependent on its favors, that there will be no opposition from that class, while on the other hand, the great body of the people mentally incapable of comprehending the tremendous advantage that capital derives from the system, will bear its burdens without complaint, and perhaps without even suspecting that the system is inimical to their interests.

Salmon P. Chase

My agency in promoting the passage of the National Bank Act was the greatest financial mistake of my life. It has built up a monopoly which affects every interest in the country. It should be repealed; but before that can be accomplished, the people will be arrayed on one side and the banks on the other, in a contest such as we have never seen before in this country.
