NEWS CONFERENCE / NEWS RELEASE

Designed by Danny Bulanadi

Subject: **Axe The Taxman**

Where: Days Inn Hotel
9850 King George Highway
Surrey, B.C. V3T 4Y3
(604) 588-9511
(across the road from the Fraser/Burnaby Taxation Office)

Time and Date: 10 A.M. Friday, 16 December 2005

Presented by: **Captain Canada – Standing up for Taxpayers**
www.antitaxcrusader.com

Captain Canada can no longer sit idly by during this Federal Election and watch politicians argue, make false promises, get elected and do nothing. It is time for Canadians to act, not only at the ballot box, but in the streets, from Victoria, B.C. to St. John, Newfoundland, to get out of their complacency, their nice guy posturing, and stand up for their rights in a free and just (so said Trudeau) society.

Wasn't it the Conservatives who brought in the G.S.T. back in 1992? Now Stephen Harper proposes to drop **only** 2% of the dreaded Goods and Services Tax. Now, thanks to this Conservative Tax, Canadians have Billions and Billions and Billions of tax surplus, and Stevie Boy only wants to reduce it by 2% over 2 years?

Martin (the Liberals), on the other hand, had promised during the 1992 election to repeal the Goods and Services Tax if they (the Liberals) were elected! Well, they got elected, but no repeal of the G.S.T.. To her credit, the Honourable Sheila Copps (Hamilton/Lib.) lived up to her word, and resigned as a Member of Parliament because the Liberals reneged on another promise between 1992-2005. But **WE** do have a huge surplus, if Paul and the Liberals haven't given another couple of billion to his friends that neither the Auditor General nor Gomery has yet found out about?

I do have an axe to grind, and you can read about my personal beef with the Taxman on my website www.antitaxcrusader.com when you have a moment. This fight dates back at least fifteen (15) years, but really goes back to my early days of Captain Canada when I challenged the entire banking system over their high interest rate policy in 1981 (21%). If you review the news clippings of the day, you see Captain Canada declared war on the banks on behalf of all Canadians, and Canadians from coast to coast learned how to force banks to write off millions and millions of dollars legally. However, the Banks and the Federal Government are partners in crime, and we – the people – have to take control again. Whether you elect the Liberals, Tories, NDP or the Bloc., we, as Canadians, will never be free again until we take control, and that means “take control of the money” and

the enforcers of the Government: the Taxman, the Police, the Civil Service, and the Banks.

We must hit the system where it hurts to take control again. That's the **money** issue.

Captain Canada proposes that the Federal Government:

1. Wipe out the G.S.T. completely **NOW**;
2. legislate a Flat Tax for all individuals taxpayers of no more than 25% of gross income, as recommended by Member of Parliament Dennis Mills (Liberal-Greenwood/St. Paul's Riding) in a motion in Parliament (House of Commons) as a Private Members Motion on September 8th, 1992 that read:

“Motion M-720: That, in the opinion of this House, the government should replace the current system of taxation with a fairer and simpler system consisting of a single rate of 20% on personal and business income”.

Regretfully, Dennis Mill's Motion was not even debated by the Members of Parliament in 1992.

Today, Captain Canada declares War **ON THE TAXMAN**. Wipe out the G.S.T. and reduce all individual taxpayers to a flat tax of 25% for personal and business income.

Today, one man in B.C. calls out to a million or more Canadians to join in the fight to free ourselves from the Bondage of the Taxman.

Go to my website, and join the anti-tax crusade. In the days and weeks ahead, Captain Canada will have a page on the website for Canadians:

- (i) to join forces with Captain Canada;

- (ii) to write your own horror story (300 words or less) on how you were treated by the Taxman;
- (iii) to make a \$100.00 **non**-tax deductible donation to the movement;
- (iv) to buy a Captain Canada designed hat emblazed with the words “The Spirit of Canada” or a host of other garments especially designed for members of the Captain Canada anti tax crusade.

Visit our website today www.antitaxcrusader.com

See you in Ottawa, or Toronto, or Regina, or Montreal, or any other City or Town that Captain Canada will visit over the next five (5) years. At age 60, I figure that I have at least five (5) years to champion the cause for all Canadians and then I can retire at 65, and another Captain Canada will lead the charge.

Captain Canada
